JENKINS ORDERS POLICE: "GO EASY ON BLACK MOBS"

NATIONAL FRONT NEWS REGRETS TO HAVE TO REPORT A NUMBER OF INCIDENTS WHICH INDICATE THAT THE POLICE ARE UNDER HOME OFFICE INSTRUCTIONS TO "CAST A LOW PROFILE" WHEN DEALING WITH COLOURED IMMIGRANT AGITATORS.

Suspensions were aroused three months ago when a mob of Asians besieged the Police Station in Southall, Middx. The mob demanded the release of two men who had been arrested during a riot staged in protest against the "racial" murder of a young Sikh called Chaggar. (Chaggar was in fact killed by a MULTI-RACIAL gang!)

This attempt to intimidate the Police into releasing persons arrested for violent criminal acts was an outrageous challenge to the Rule of Law.

Such a challenge should have been met by a total mobilisation of the Police. The mob should have been dispersed and its ringleaders arrested.

Instead, what happened?

Senior Police officers actually engaged in "negotiations with leaders of the Asian community". The result was that the two men were freed and were carried away in triumph shoulder-high by the laughing alien rabble.

One of the freed men had no charges preferred against him at all, and the other only had one minor charge which, as part of the "deal" with the Police, he promised not to tell the mob about.

This was a terrible defeat for the Police. The Asians of Southall now feel very cocky . . . but the White minority — yes, *minority* — live in fear.

On 11th July the International Marxist Group, International Socialists and a variety of Immigrant Red organisations held an "anti-racist" march down Whitehall. As the column passed Downing Street there was a 'sit down'.

Police moved in and after scuffles six demonstrators (believed to be Asians) were arrested for offences which included Assault on the Police.

Some days later the *NF News* staff were shocked to hear allegations from Police officers that the officer in overall charge of Police on the demonstration had gone to the station where the arrested men were detained, ordered their immediate release and scrapped all charges.

An *NF News* reporter phoned the Press Office at Scotland Yard to seek verification of these disturbing allegations. An assistant noted details of the enquiry and promised a quick return call.

NF News is still awaiting that return call!

NF News tried to get the truth by contacting journalists on a number of national newspapers, including *The Guardian*, the *Daily Mail* and the *Daily Telegraph*.

Each journalist showed a strong interest in the story and promised a return call if they came up with any information which would confirm or disprove the allegations.

NF News is still awaiting their

return calls!

Later in July newspapers reported the theft of the famous "For Sale to an English Family" sign from the Leamington Spa home of Mr Robert Relf. (The sign has since been replaced by a duplicate!)

The International Socialists boasted that they had stolen the Relf sign for the purpose of burning it on a demonstration in Southall.

Following these published boasts the sign was paraded through Southall openly on a demonstration which had a Police escort! The sign was then burned on the public highway. The Police made no arrests — either at the time or later.

One needn't be a master of deduction to work out from these incidents that Police chiefs have been persuaded by Home Secretary Roy Jenkins to "avoid confrontations with the Coloured Immigrant communities in the interests of good community relations".

Quite rightly, the Police in Britain can still count on the respect and confidence of the majority of citizens, despite a continual barrage of anti-Police propaganda from the Left and other criminal minorities.

In these present unsettled times the Police need the support of the Majority as much as the Majority need the protection of the Police.

The Majority do not require top Policemen to prattle trendy sociological clichés at press conferences, giving the impression that they run some kind of uniformed social workers' organisation.

The Majority require the Police to UPHOLD THE LAW and MAINTAIN THE QUEEN'S PEACE impartially — and that means regardless of political considerations such as so-called "community relations".

The Police should ignore the advice of "ex-Communists" like Roy Jenkins. Jenkins' new complaints against the Police procedure is as much calculated to undermine Police morale as his new Race Relations Act is calculated to demoralise the British people as a whole.

John Wright to fight Blackburn election

JOHN WRIGHT, secretary of the Blackburn Branch of the National Front, is to fight the forthcoming council by-election in St. Jude's Ward of Blackburn, Lancs, on September 16th.

In the May municipal elections earlier this year, John polled an excellent 11 per cent of the vote for the National Front in the Trinity Ward of Blackburn. In an eight-cornered fight he beat the two Conservatives, the Liberal and the Independent Labour candidates.

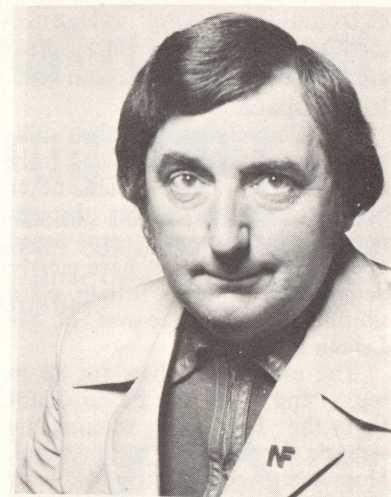

John is 47 years old, married and is an ex-member of the R.A.F. Now employed as a motor engineer, he is a stalwart member of the NF's Blackburn Branch and a man dedicated to looking after the interests of the white British people of Blackburn, whose town has deteriorated so appallingly as a result of the massive influx of immigrants.

John and his colleagues in the Blackburn Branch of the National Front feel it vital that the National Front should put up a candidate in this election, not only to champion the cause of local British people but also to restore the good name of British Nationalism in the town, which has been brought into serious disrepute by elected representatives of the splinter group "National Party".

Brawls in the Council Chamber as well as air gun and bottle throwing incidents involving members of this party have seriously damaged the Nationalist cause, and this must not be allowed to continue.

Shortly after being elected, one representative of this party, John Frankman was forced to resign when it was revealed that he had a criminal conviction. (Driving without insurance is a criminal offence, not a "motoring" offence as described by the *Lancashire Evening Telegraph*).

John Wright recently told a meeting of the Blackburn National Front: "We must see to it that patriotism is not besmirched in our town. We in the National Front can show by our honesty and integrity that the electors of Blackburn have a British nationalist party they can trust.

John Wright: NF candidate for St. Jude's Ward in Blackburn.

"The NF is now one of the major British political parties, one that will certainly affect the outcome of the next General Election. We have built this position for ourselves by our reputation among the electorate as a serious, honest and straightforward political party. We will always maintain that reputation. Political hooliganism is something we cannot tolerate".

Asian rioters triumph over police

EDITORIAL

On the way to victory

DESPERATE to divert public attention away from their own miserable records, both the Labour and Tory parties have pompously announced that they are going to 'make war' on the National Front.

Nobody should be in the least surprised that the charlatans and incompetents who comprise the leaderships of the old political parties are acting in concert against a young and fast-growing movement such as the National Front.

Faced with the knowledge that increasing numbers of people are, at long last, beginning to see through the myriad of lies and distortions with which they have cloaked their appalling catalogue of failure, the Establishment parties have frantically decided: "Enough is enough — the National Front must be stopped before it is too late".

We have news for them. It is already too late. No amount of mud-slinging by the Whitehall traitors and the hacks of Fleet Street is going to stop us now. The day is coming — and in their heart of hearts they know it only too well — when we shall be able to sweep away all the corruption and treason of the last 30 years.

The Establishment parties may have unlimited resources they can call on for its hate campaign against the National Front. But we have a far more potent weapon. **People.** More and more of them are joining our party every day and are helping us to win some of the early skirmishing. It will eventually help us win the new Battle for Britain.

For a further exposition of the National Front point of view, read:—

Spearhead

Spearhead is an independent 20-page monthly magazine which supports the National Front. The views expressed in it are basically the same as those in **National Front News**. The only difference is that it concentrates more on deep and serious articles and less on short, punchy news items, as is the case in our paper. It is nevertheless attractively produced and easy to read. It is highly recommended to all National Front followers.

Socialism means *Communism*

IT IS no longer necessary to warn the people of Britain that they face the very real danger of being ruled by a Marxist totalitarian State. The aims and attitudes of the present Government make it crystal-clear.

Proof? There's plenty of that. Let's examine the fundamental doctrines of Communism and make a comparison with Britain, 1976.

COMMUNISM means no political opposition. **FACT:** More and more leading figures in the Labour Party and trades unions — self-confessed Marxist Arthur Scargill, particularly — are demanding a ban on the NF.

COMMUNISM means no free speech, no freedom of assembly. **FACT:** In many parts of Britain, Labour-controlled councils have banned the NF from their halls. **COMMUNISM** means harsh penalties against dissidents who dare challenge the Marxist utopia. **FACT:** The government will have draconian powers under the terms of the new Race Bill to forbid written and spoken opposition to coloured immigration.

COMMUNISM means State-control of productivity. **FACT:** The government is preparing to take over the aircraft industry and docks and has even more nationalisation plans.

COMMUNISM means no national sovereignty, demands total obedience to its 'world order'. **FACT:** Labour is committed to dragging Britain into a world government, which would unquestionably be Communist-controlled.

COMMUNIST founders Marx and Lenin both said that the destruction of the British Empire was essential to the ultimate triumph of their creed. **FACT:** Labour — with the connivance of the Tories — have destroyed the once-mighty British Empire.

'A **COMMUNIST** Britain will never be achieved by the working class — we shall have to import the revolution for them' — Karl Marx. **FACT:** There are now MILLIONS of aliens in Britain and nine-tenths of them vote Labour. There are now substantial numbers of blacks in the Communist Party and other far-Left organisations.

BELOW: Callaghan with merchant banker Julian Hodge and David Rockefeller of Chase Manhattan Bank.

The stink of Socialist corruption

THE LABOUR PARTY has recently announced plans to "expose" the National Front to the voting public — because, of course, the multi-racialists, Communists and "Mr Fixits" in the Labour party are terrified of the growing support for the NF which is coming from ordinary working people totally disillusioned with their policies.

A plan to "expose" the NF by the Labour party is certainly the ultimate in hypocrisy, since that party is so completely riddled by corruption it fairly stinks.

The case of Labour MP John Stonehouse, found guilty on numerous charges of fraud, forgery and theft, is only the latest advertisement for the utter rotteness prevailing in the "labour movement". (Stonehouse, of course, was one of the most extreme of all pro-immigrant MPs, whose major service to his constituents was to found an Anglo-Bangladesh Bank.)

The Poulson scandal, an endless catalogue of bribery and financial fiddles involving numerous Labour councillors in the North of England as well as prominent politicians, was certainly only the tip of the iceberg so far as the nationwide lining of Socialists' pockets is concerned.

Labour party "exposers" of patriots also have a noted ability for losing their political principles. Peerages for people like Sir Lew Grade, Sir Max Rayne, chairman of London Merchant Securities, and former scrap metal dealer millionaire

Sigmund Sternberg are certainly strange coming from "socialists".

Socialist Prime Minister Callaghan, as well as (former Labour) Speaker of the Commons George Thomas and seven other Labour MPs, also manage to be shareholders in merchant banker Julian Hodge's Commercial Bank of Wales, the centre of a £265m group of 91 companies.

Multiple rape at knife point by Asians

THREE Indian immigrants recently abducted a white girl from a London street, drove her to a lonely park and multiple-raped her at knife-point. A week before the gang had made a similar attack on a white woman.

When he sentenced all three to seven years in prison, Judge Gwyn Morris, Q.C., told them: "You came to this country and were given employment and protection.

"You have repaid the privileges you enjoyed here with a measure of brutish contempt for the standards of civilised society that puts you totally outside the ambit of normal, decent and ordinary people. You behaved like barbarians."

The ethno-masochists and liberal traitors will doubtless excuse the behaviour of these three barbarians because they were socially deprived, unemployed and all the rest of it.

The likes of Jenkins and Bonham Carter should have been alongside them in the dock, for it is their policy of open-door immigration that has brought about such an alarming increase in black crime.

saying that he disagreed with Trotskyist revolutionaries "only about the way they proceed, the tactics they adopt..."

Then we have such notables as **DENNIS HEALEY** and **ROY JENKINS** confessing that they, too, were once (?) card-carrying members of the Communist Party.

But no matter what sort of position the Reds we have mentioned hold in the Labour party, they are all one thing — immigrant lovers and race-mixers. Not that we are surprised, since the British Communist Party has made its position perfectly clear on the immigrants issue: NO LIMITS.

As Labour Party 'mounts war' on National Front, we expose

Reds in the Labour Party

DESPITE the warnings of genuine Social Democrats about the insidious growth of extreme Left-wing influence within the Labour Party, the subversion and infiltration continues apace.

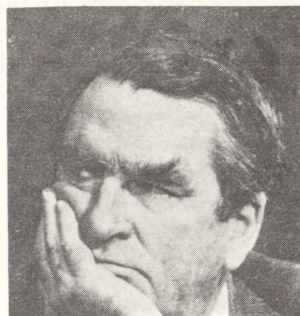

The Communists and their militant far-Left allies, knowing only too well that they could never hope to achieve power through normal constitutional means based on their own policies, have clearly determined to seize Britain by a skilfully-planned take-over of the Labour Party.

The evidence is there for all to see — and there can be no doubt that the Reds are winning the struggle for Labour's political soul. More and more committed Marxists are rising to power in the constituencies; an increasing number of far-Left 'Labour' parliamentary candidates are being adopted; the Red domination of the major trades unions — which, in turn, tell the Government what to do — stays firm.

Of even greater concern is the political muscle the Communists and their fellow-travellers are able to wield inside the Palace of Westminster itself.

It has been estimated that at least 26 so-called Labour MPs are either undercover Communists or fellow-travellers. Another 75-80 would unquestionably throw in their lot with the Communists if they believed the time was right to display their true colours.

Right at the heart of the Labour Party is a 'secret' organisation of Trotskyists, complete with its own national policy, full-time officials and disciplined membership. Called the Revolutionary Socialist League, it aims to use the party as a base for creating revolution.

IAN MIKARDO
Trades with the Iron Curtain

The Red penetration has become so deep, so inextricably linked with a fifth column within the Labour Party, that they are openly boasting about it. Bert Ramelson, the CP's Ukrainian-born industrial organiser (chief wrecker, in other words) once got so carried away with excitement that he blurted out: "We have only to float an idea early in the year and it can become official Labour policy by the autumn".

Reds and their fellow-travellers have effectively taken control of many constituency parties, trade union branches and executives, the TUC's general council and Labour's National Executive. There are even Reds and sympathisers in the Cabinet Room.

Just who are the Reds who have used — and continue to do so — the Labour party in their unrelenting quest to convert Britain into a Marxist state? Many so-called Labour MPs have made no bones about their true political leanings.

Take **FRANK ALLAUN**, for instance, an "ex-Communist" who sits on Labour's NEC. He is a committed pacifist — only when it comes to Western arms, of course — and once launched a campaign to slash £1,000 million off Britain's defence budget. According to Allaun, — MP for Salford East, the red

Morning Star newspaper is "independent of the ruling class".

Immigrant-lover **SYDNEY BIDWELL**, MP for Ealing and Southall, had admitted that he "used to be" a Trotskyist. But where was he when the Socialist Labour League (now the Workers' Revolutionary Party) held a rally at Wembley? He was on the platform spouting off in praise of Marx, Engels and Lenin!

Former minister **JUDITH HART** has attended the *Morning Star* birthday celebrations, sitting in comradeship with the Communist Party top brass. That newspaper reported her on March 4th, 1974 as saying that she was "immensely grateful" to the *Star* for the "accurate" way it had reported events in Chile.

Bolover MP **DENNIS** (Old Yellow Socks) **SKINNER** is probably more Left than even Mrs. Hart. He is another fervent *Morning Star* reader and once, when casting doubt on the value of Parliamentary democracy, said: "I don't think there can or will be a discreet reform of capitalism, through Parliament or otherwise... you have to aim for real power in society and overcome the sheer weight of the establishment".

Then there's **RENEE SHORT**, who hates the National Front and is connected with numerous Anglo-

Iron Curtain organisations. She says there is much "emotive nonsense talked about the Berlin Wall". People, she declared still did not understand why it was built — "to stop the brain drain, the skill drain, the black market activities from West Berlin".

IAN MIKARDO, brains behind the Tribune Group, is a member of Labour's NEC and has made so many visits to Communist countries he probably by now has a complimentary air ticket. A close friend of leading Iron Curtain politicians, Mikardo has built up a successful import-export business through his Communist East European connections and is a very wealthy man. Strange how so many of his kind are?

Dear old **MICHAEL FOOT** is another whose Leftist background is undisputed. Yet another who has attended *Morning Star* birthday celebrations, Foot once stated: "I want to see the *Star* triumphing over all its difficulties". A Government Minister praying for the continuation of a Communist newspaper?

ERIC HEFFER, Labour MP for Walton, left the Communist Party because it wasn't left wing enough! In 1973, in an article in *Tribune*, he admitted to being a Trotskyite.

Black vigilantes — Jenkins backs down

Jenkins: "If they're black — pat their back".

FROM London comes yet another example of the way in which Roy Jenkins' Home Office continues to toady to the ever-growing immigrant hordes.

It happened after the West Indian Standing Conference had issued a document urging "non-white settlers in the UK to be watchful, cautious and observant" in the field of race relations. "Every such person is a vigilante in the WISC scheme", it went on.

Now to us that sounds suspiciously like the beginnings of a Black 'private army'. The local police obviously thought so as well, for they asked Scotland Yard to investigate.

But what happened when two officers called on George Martin, WISC youth officer? He screeched that he was being harassed by the police and letters were promptly dispatched to Jenkins and Liberal super-cop Robert Mark.

Written by WISC secretary W.I.

Trant, the letters said that Martin was "a responsible and highly-regarded figure in the Black community" and arrogantly complained that the police investigation "causes us great concern and warrants an explanation".

You've guessed it. At the behest of the Home Office, Scotland Yard has promised an inquiry.

It's the same old story. If it is blacks who are breaking the law, Jenkins will not only turn a blind eye but positively grovel to the immigrant culprits. And this was the man who had the cosmic impertinence to accuse the National Front of operating "just within the bounds of the law".

All over the country, blacks are now engaged in forming private armies and "vigilante squads" for the express purpose of terrorising white communities and attacking British patriots.

If there is anybody who still believes that these organisations are merely for "defence" purposes, a recent case in London will dispel any doubts.

According to the *Hackney Gazette*, the purpose of Black Workers in Struggle (a black Marxist body described as a "defence committee") is to "break up NF meetings".

Organisations like this are in clear breach of the Public Order Act, which forbids such private armies, yet no action is taken against them. Instead, race-mixing, far Left Labour MPs and immigrant bodies demand the banning under the Public Order Act of a properly constituted political party — the National Front — because we dare to stand up for white Britons.

Black vigilante groups flout the law.

MURDERED ... FOR £5

THE MAN in this picture, Tommy Benson, a 56 year old fair-ground owner, was stabbed to death by a gang of blacks on Clapham Common in London recently — for £5.

Mr Benson was working on his dodgems when an argument arose with the immigrant over change for a five pound note. He was soon surrounded by a menacing gang of twenty Rastafari black youths wearing "tea cosy" hats — and in the melee one of them stabbed him through the heart. One witness described the unfortunate victim as "not just stabbed but cut right open".

This horrific killing came as the culmination of months of trouble from gangs of immigrants on fair-grounds all over London. Public fairs such as at Brockwell Park, Herne Hill — the scene of riots every year — and at Streatham have been ruined by these gangs of marauding blacks.

Referring to the murder, Mr Tommy Smith, the Showman's Guild London area chairman, said: "We've been expecting something like this".

He went on: "One or two fairs have had to pull down early because of trouble. We have had hired policemen on the grounds to keep an eye on the place, but there are so many of these people".

It was notable that as soon as the young Sikh Chagar was killed in Southall recently, Roy Jenkins

TOMMY BENSON murdered by blacks

hastened off there and did his nauseating "walk-about-cry-about", shaking hands with immigrants and being at great pains to console the coloured community.

But when Tommy Benson was murdered by blacks, Jenkins did not even visit the victim's widow to offer her some comfort, let alone walk about shaking the hands of local Britons and enquiring after the welfare of the long suffering white community.

POLICE REVEAL: Huge increase in muggings by Blacks

BLACK MUGGERS are stepping up their 'war' on white communities. According to the Metropolitan Police, there was an incredible 42 per cent increase in the number of muggings during January-April this year compared with the same period of 1975.

In April alone, there were 203 muggings in the Metropolitan Police area. April, 1975, had 'only' 143 attacks reported. The figure for April, 1974 was less than 100.

But the frightening aspect of this 'war' — carried out mainly against white women — is that it no longer confines itself to the largely immigrant areas of London. The black muggers have sensed there are richer pickings in the suburbs.

Take Sutton, for instance. Muggings and handbag-snatchings are on the increase, said Chief Inspector Eric Goddard, who added: "We used to be a nice quiet corner of London. Now we are very much aware that we have this problem".

The breakdown of Scotland Yard's figures is: January 205 attacks (41.4 per cent up on January, 1975); February 191 (42.5 per cent UP); March 178 (47.1 per cent UP); April 203 (42 per cent UP).

Very often, the black muggers are not content merely to rob their victims. They hurt and sometimes deliberately maim. Irish-born Mrs. Mary McLaughlan, of Colindale, London, will testify to that.

While walking to work one day through an underpass, IN BROAD DAYLIGHT, she was stopped and violently assaulted by a 6ft tall West Indian. "He suddenly grabbed me by the throat," said Mrs. McLaughlan. "I fell to the ground, gasping. As I lay there he started to punch me. I don't know how many times he punched me."

Mrs. McLaughlan's assailant got away with her purse, which contained about £4.50. Bleeding profusely, she was rushed to hospital, where a specialist was called in to

MARY McLAUGHLAN Punched in the face

examine her damaged left eye.

Black crime starts at an early age. Two coloured boys, aged about 9 and 14, knifed 79-year-old widow Mrs. Nora Edwards in the arm as she was walking home and ran off with her handbag containing £300 life savings. The cowardly attack happened just a few yards from Mrs. Edwards' front door.

Her daughter said: "Mum is still very poorly. She is badly bruised and suffering from shock. She had quite a few stitches in her arm".

These two incidents reflect the growing violence of Britain's black communities against the indigenous white population. There's only one solution: SEND THEM BACK!

"DIRTY ARABS" RUIN MAYFAIR

THE INVASION of fashionable Mayfair by rich but "dirty Arabs" with disgusting toilet habits and other alien customs has at last brought the immigration problem home to the well-off classes in Britain.

Arabs squatting on the doorsteps of Regency houses until 2 am in the morning rather than live inside, all night parties and bizarre washing hanging from the courtyard windows of picturesque Hertford Street and Queen Street are just some of their complaints about the area, now becoming "like the Casbah in Algiers", they say.

Arabs tired of walking can be found in Curzon Street lying on the pavement against walls and railings, and dozing in doorways.

"I recently had to investigate complaints about smells coming from a lavatory that was being misused", a commissioner on Curzon Street told the *Daily Telegraph*. "I had to use sign language to indicate that the mess on the floor had to be swept up."

Many residents have watched the extraordinary spectacle of well-dressed Arabs rooting through the overnight rubbish outside Shepherd's pub in Shepherd's Market. One clergyman stated that local Arabs "defecated in the street and spat everywhere".

But why the fuss about Mayfair? Strange that when the ordinary people of Blackburn or Bradford complain about the filth and chickens slaughtered in the back yard, they are called "racists" or told "You've got to learn to live with it".

The double standard occurs firstly because the Arabs are anti-Zionist, so they are regarded as a good target, and chiefly because it's the well-off who are now suffering. Never mind the ordinary folk — but when it's Mayfair everyone starts howling.

Chinese 'Mafia' runs vast London drugs ring

IN Britain's enforced multi-racial society there are many opportunities for immigrants of whatever colour to get-rich-quick by means of intimidation against their own kind or pandering to the base tastes of other communities.

Nowhere is this more true than in London's tightly-knit Chinese community. There, gangster societies called Triads grow fat on the enormous proceeds of their drug-running activities and other racketeering.

The Triads — originally semi-religious, semi-political organisations — have their roots in Hong Kong. Ruthlessly run, the Triads are potentially stronger than even the Mafia, and the Police have evidence that they are stepping up their evil activities in this country.

Their particular forte lies in drugs. The amount of heroin traffic in Britain runs into many millions of pounds and even Scotland Yard's success last month in seizing drugs worth £400,000 is unlikely to cause the Chinese crime overlords any loss of sleep in their palatial homes.

Since an international police operation smashed the legendary French Connection heroin pipeline, the Triads' drug empire has swollen. Chinese drug gangsters are now almost certainly the most powerful in Britain and the rest of Europe.

Over the past two years there has been a noticeable increase in the amount of Chinese-originated heroin being used in Britain. In addition, investigators claim that

"Every week we will get money here in envelopes marked 'O.H.M.S.' — which means 'Only Hindus, Muslims, Sikhs'."

Race Riots Flare in New Zealand

IT'S not only Britain which is feeling the inevitable repercussions of a massive immigrant invasion. New Zealand too has seen the rise of black arrogance and lawlessness.

Racial tension is increasing as more and more migrants from Pacific islands pour in, principally to Auckland. Gangs of marauding blacks fighting one another is a common sight in Auckland today, and the white population are fearful for their new way of life.

Said one white worker, who went to New Zealand five years ago: "I left England to get away from the blacks — now they've followed me here".

White antagonism is rising because New Zealand's social services are beginning to feel the strain of the black burden. Jobs, too, are threatened by a steady influx of cheap labour.

Just how much longer the white population will be able to retain their patience while the race-mixers pontificate is anyone's guess.

The Triad triangle.

London may well be a major shipment centre for drugs going to other parts of the world.

The Triad gangs supplement their income with straight-forward thug-gery against their own people. 'Protection' rackets are rife among the Chinese restaurants and clubs in Britain and some businesses have been so bled dry that they have been forced to close down.

Chinese gangsters are reported to be buying up these failed concerns. They are said to control night-clubs, a cinema and, according to police sources, have started to operate a Chinese 'numbers game' called Tse Fa.

When intimidation and threats fail, the Triad gangsters resort to murder. Police investigating a series of recent killings — six in Amsterdam, one in London's Soho — suspect they have a Triad connection.

One team sells over 500 copies in a morning ...

Street sales boom for *National Front News*

NF members sell *National Front News* at Hoxton Market in the East End.

THE MESSAGE from the East End of London to sellers of the NF paper *National Front News* is: Take BIG teams out onto the streets!

The Hackney and Islington Branches of the National Front, with activists from other areas, recently chalked up a great success by selling no less than 574 copies of *NF News* in a single morning at Hoxton Market in the East End.

About 30 activists joined together on this great sales drive — and by a few hours work took the message of the National Front to probably more than a thousand people.

All NF Branches and Regional Organisers should take note of this success. The way to sell our paper is undoubtedly for large numbers of activists from several Branches to combine into big teams and concentrate on one particular area. They can then move on to the area of another Branch for the next sales drive the following weekend — so that the same team eventually covers

a whole Region.

Another bonus of size is as a deterrent for the Communist riff-raff who are prone to violent apoplexy at the sight of NF members selling a patriotic newspaper. At Bolton and Rochdale recently, groups of blacks egged on by communists have tried to prevent the sale of *NF News*. Don't let them get away with it.

The sale of *National Front News* is booming nationwide. Over four thousand copies alone are sold in North and East London, and Leicester Branch of the National Front now sell no less than SIX

THOUSAND copies in the city through a system of door-to-door promotion. Through sales like these the National Front message is reaching more people in Britain than has ever been achieved by a nationalist paper since the war.

We realise that not all NF Branches can achieve these sorts of local sales, and not all units can sell the paper *en masse* on a Regional basis. But they can TRY — and help build what is now the highest circulation nationalist paper ever! Organise now, and remember — one big team can reach thousands of readers.

The Hackney and Islington team — over 500 copies sold!

ANTI-IMMIGRATION MARCH AND RALLY IN WALSALL

Saturday, 25th September

The National Front is holding a major anti-immigration march and rally in support of its candidate in the forthcoming by-election, Mr Charles Parker, who was born and bred in Walsall and has a fine war record.

This could well be one of our biggest marches ever with the support of all Branches in mobilising for this great event.

We invite the support of all patriotic men and women, not only members of our party, who can come to Walsall to take part in one of the National Front's stirring patriotic demonstrations. ASSEMBLE: 2.30 p.m. at the corner of Primley Avenue and West Wolverhampton Road, Walsall, Staffs. (Turn off M6 Motorway for Walsall at Junction 10. You immediately join the West Wolverhampton Road. Primley Avenue is the first turning on the right.)

MARCH OFF: 3.00 p.m.
INDOOR RALLY: 4.00 p.m.

N.F. ORGANISES TRIP FOR O.A.P.s

AN outing to Margate for Old Age Pensioners was organised last month by Sutton Branch of the National Front, whose Chairman Roy Trethewey is also Chairman of the Carshalton O.A.P.s Association.

Seven coaches were organised by the NF, and the trip ended with a reception by the Mayor and Mayoress of Margate. A highlight of the trip, according to Roy, were the Union Jacks supplied by the National Front.

The money for the trip was raised at the O.A.P. Charity Shop in Carshalton run by Roy Trethewey, where copies of *Spearhead* and *National Front News* are regularly on sale.

Sutton NF Branch, now one of the largest in the London area, was formed after the parliamentary by-election for Carshalton in March, when Terry-Denville Faulkner polled 1,851 votes for the NF. The O.A.P.s Association straightaway offered their shop as a campaign committee rooms.

BUILDING FUND

The National Front is shortly to embark on a business venture in order to acquire a new National Headquarters with office facilities, a club room and printing works. It is only by this method that the party can realistically raise the necessary capital for such a property, rather than through the normal appeal for funds.

Contributions towards the Building Fund, however, (which now total £218.00) will still be gratefully received, and these will be put towards the initial capital outlay on the new venture.

CALLING CANDIDATES

Would those NF members who have not been selected by Branches or Groups of the party to stand as candidates in the next General Election, but who wish to be considered as candidates, please inform NF Head Office in writing, supplying their personal details.
